

*Due to overwhelming demand, labor shortages, and shipping constraints, we can no longer guarantee same day shipping for orders placed by 5:00pm EST. We will continue to make every attempt to process every order on the same day, but with the current industry environment, it's not always possible on heavily impacted days. We highly encourage all customers to plan accordingly and order as early as possible to help alleviate the end-of-day pressure.*

*We appreciate your business and understanding during these difficult times. We will continue to move toward a return to guaranteed same-day shipping, and will keep you updated as things change. We appreciate your patience!*
